HOME DESCRIPTION

A 0.726 acre homesite tucked away in a quiet cul-de-sac and backing to beautiful woods gives this Barnwell the perfect blend of privacy and outdoor space, while the 1,369 square foot interior keeps everyday living efficient. This two story home offers three bedrooms and two-in-one-half baths with a layout designed to make excellent use of the available space. The great room opens directly to the dining area and kitchen, creating an easy and connected main level for everyday living and entertaining. A powder room and laundry area add convenience downstairs, while the covered patio creates a natural extension of the living space outdoors with peaceful, wooded views. Upstairs, a central loft provides an additional place to work, relax, or create a second living area and connects the primary suite with two secondary bedrooms. The primary suite includes its own private bath and walk-in closet. A one car garage and covered front porch complete a home that offers usable space without an oversized footprint.
